

APGO Undergraduate Web-Based Interactive Self-Examination (uWISE)

Available @ www.apgo.org/eLearn

APGO has developed a 529-question interactive self-exam to help medical students acquire the necessary basic knowledge in obstetrics and gynecology, regardless of future medical specialty choice. This is achieved through self-assessment, using clinical vignettes with multiple-choice questions and five (5) possible answers, with immediate explanation and feedback. Some questions are enhanced with images to augment the learning process.

This quiz, titled uWISE, is also an excellent tool to help prepare for the NBME ob-gyn subject exam and national licensure examinations. In addition, reports on your students' performance and comparisons to the national means are automatically e-mailed to clerkship directors twice a year, in January and June.

uWise questions are based on the *APGO Medical Student Educational Objectives*. Each quiz represents one

Objective and contains 10 questions for each Objective (except for Objectives 57 and 58).

Access to the password-protected quizzes is available to all students and faculty of APGO Member Departments for an annual fee of \$500. The non-APGO-member price is \$800.

Please visit www.apgo.org/elearn under uWISE for further information on how to subscribe or to view a sample quiz (enter "sample" for username and "testing" for password). Note: It may take up to 3 business days to process your id and password.

Visit www.apgo.org/eLearn to view the ways students and faculty can utilize the uWise questions.

Order uWISE today to offer this important self-study resource to your students.
