A PGO is turning 50! What an incredible opportunity to serve the organization on its 50th Anniversary. A great deal of my first few months as president has been spent preparing for the celebration. In part, that preparation involves reflecting on the remarkable vision and agility of our founding members and past leaders as we continue to serve the membership and help them improve health care for women.

One aspect of that adaptability was the reorganization to create two-year terms for the president. This change allows the ability to maximize and complete presidential initiatives while improving transitions in leadership. John G. Giannopoulos, MD, is on course to complete three presidential initiatives. Our APGO position statement on Ob-Gyn Educators’ Interaction with Industry (complete with FAQ’s and algorithms) is now posted on our Web site for use. His clearinghouse for academic value systems for educational activity has been similarly posted and his joint initiative with CREOG to establish the fourth-year medical student “boot camp” is well on its way. Best practices are currently under review to create a master toolkit that medical schools and residency programs can use to build their own curriculum for the “differentiated” fourth-year medical student.

My initiatives cover two themes: protecting APGO's Capstone Programs and elevating our educational scholarship to the next level. Our financial times and the regulatory environment that we find ourselves in threaten the existence and ongoing strength of our programs. Renamed the Capstone Programs, the Academic Scholars and Leaders Program, the Clerkship Directors' School, the Faculty Development Seminar, and the Surgical Scholars Program are the cornerstones of our organization. Under the leadership of Susan M. Cox, MD, Development Committee Chair, we are currently critically reviewing each of these programs for outcomes, impact, and value so that we prioritize our support, both fiscal and administrative. In addition to this analysis, we have mounted an ambitious campaign and I am happy to say that even prior to the start of 2013, we are a quarter of the way to our $1,000,000 goal. We still have a long way to go, however, so if you have not yet donated, please visit www.apgo.org to make your pledge now.

My second initiative is to push our educational scholarship to a new level. I have challenged the Undergraduate Medical Education Committee (UMEC) and the Electronic Resources Committee (ERC) to catalogue our abstracts in a way that we can build on existing work rather than recreating wheels. UMEC will be working to move our premier submissions for the Annual Meeting to Teaching and Learning in Medicine, and perhaps a dream or two would be to develop our own APGO e-journal and an educational network over time.

In conclusion, while we are celebrating 50 amazing years, we are embarking on a new 50. We must ensure the strength of the organization endures. We have incredible support in our staff and our membership and a heritage of innovative leaders to follow. I appeal to each of you to celebrate our 50th Anniversary recognizing the contributions of the past while looking toward the future.

Sincerely,

Amy E. Young, MD
APGO President

Mission:
Promoting excellence in women's health care by providing optimal resources and support to the educators who inspire, instruct, develop and empower women's health care providers of tomorrow.
Meetings

APGO Faculty Development Seminar
The 2012 APGO Faculty Development Seminar, Focusing on Our Learners' Success: Collaboration, Character, Competence, featured plenary sessions, interactive workshops and educational round table discussions. The meeting was a huge success thanks to meeting co-chairs Petra M. Casey, MD, Lorraine Dugoff, MD, and Archana Pradhan, MD, MPH, who developed an exceptional meeting program.

The 2012 William N. Herbert, MD, Promising Educator Award was presented to LaTasha B. Craig, MD, of University of Oklahoma. Doctor Craig is a full-time junior faculty member who has demonstrated remarkable potential as a future leader in women's health care education.

CREOG & APGO Annual Meeting
The 2012 CREAMC & APGO Annual Meeting, Embracing Transitions in Healthcare: Educating for Tomorrow, Today!, was attended by over 950 ob-gyn physician educators and administrators. Meeting co-chairs Mark B. Woodland, MS, MD, and Sonya S. Erickson, MD, planned the educational four-day program, which included a film festival for the first time.

During the 2012 Annual Meeting, the Martin L. Stone, MD, Fund for the Advancement of Medical Education in Obstetrics and Gynecology Award was presented to Kristina Tocce, MD, of University of Colorado, Denver. Doctor Tocce is a graduate of the 2009-2010 APGO Academic Scholars and Leaders class and will use the award funds to advance her research project, “Are We Providing Time to UMEC, we also said a fond farewell to our colleagues, Petra M. Casey, MD, and Francis S. Nuthalapaty, MD. We would like to extend our thanks for their countless contributions, and wish them all the best in their new adventures — hopefully more with APGO!

Faculty Development Seminar
Each year, this conference serves as one of the major venues for ob-gyn educators to learn new techniques, discuss a variety of educational topics and focus on professional and personal development. Participants come away inspired with new ideas, rejuvenated in their roles as educators, and reminded of the rewards of teaching and learning about ob-gyn and women's health. The January 2013 Faculty Development Seminar, attending meetings, and utilizing the APGO educational resources. A special thanks, also, to the many members who helped contribute to the success of the 2012 Annual Meeting.

I am pleased to share with you some of the many achievements celebrated in 2012 and am grateful to all those who contributed to the development and implementation of the following programs and resources. We truly appreciate the contributions from the many APGO members who helped contribute to the success of the committee by volunteering to work on special projects, offering each year just prior to the Faculty Development Seminar, attending meetings, and utilizing the APGO educational resources. A special thanks, also, to the many former UMEC members who remain involved in the work of UMEC and APGO.

A message from the UMEC Chair
Nancy A. Hueppchen, MD, MSc, Chair, Undergraduate Medical Education Committee

I am excited to report that 2012 was again a busy and productive year for UMEC. It is with great pride in our accomplishments and anticipation of our committee’s potential that I assume the role of UMEC chair. I look forward to leading a group of colleagues I also call my friends—each of them leaders in their own institutions and role models nationally. I am always awed by the energy and creativity of this group.

In March 2012, the committee said farewell to my friend and mentor, Nadine T. Katz, MD, who devoted eight years to UMEC. We will miss her wit and wisdom, but will certainly find ways to keep Nadine connected and contributing to the mission of APGO. Also, in 2012 we welcomed three new UMEC members: Samantha Buery-Joyner, MD, Virginia Commonwealth University; Brittany Star Hampton, MD, Brown University/Women & Infants Hospital; and Sarah M. Page, MD, San Antonio Uniformed Services Health Education Consortium. All three new members jumped right into the creative pool, and are now deep into projects and medical education reviews which support our APGO members. After six years of dedicated service to UMEC, we also said a fond farewell to our colleagues, Petra M. Casey, MD, and Francis S. Nuthalapaty, MD. We would like to extend our thanks for their countless contributions, and wish them all the best in their new adventures — hopefully more with APGO!

I am proud of UMEC’s accomplishments, honored to have the opportunity to lead our committee, and grateful to all of the members for their tireless work and contributions. I would also like to thank Donna Wachter, and the rest of the APGO staff for their commitment to the work of UMEC, as well as APGO and all its members.

February. APGO believes that completion of all three sections of the School is essential for all new ob-gyn clerkship directors and awards a certificate of completion to those that complete the three-part series within a three-year time period. The 2013 School will certainly be a worthwhile educational training experience.

eBulletin
An e-Bulletin delivers member news, meeting and event information, and award and grant opportunities straight to your inbox in a concise, easy-to-read format. We’re always looking for your teaching tips and questions for our Dear UMEC column so don’t hesitate to send us your input!

Highlights of 2012 UMEC Achievements
- Planned the 2013 Faculty Development Seminar: UMEC offers mentors for the 131st annual meeting, and selected abstracts for workshops and round tables, and developed the seminar program
- To the Point Series: A Primer on Medical Education Research published in AJO in July 2012
- Developed several new manuscript concepts and began the production process on two
- Collaborated with the APGO Electronic Resources Committee on new initiatives
- Developed job descriptions for specific UMEC assigned duties
- Selected topics and speakers for the UMEC designated sessions for the 2013 CREOG & APGO Annual Meeting
- Revived the workshop on Journal Watch in Obstetrics and Gynecology Medical Education Research to be presented at the 2013 CREOG & APGO Annual Meeting
- Continued our involvement with the Alliance for Clinical Education (ACE) by participating in the ACE Executive Committee, Publications Committee, and Communications Committee
- Contributed to the ACE panel discussion on “Implementing Milestones in Medical Education” at the AAMC Annual Meeting in November 2012
- Continued working on an education-based original research project involving teaching clinical skills for the gynecologic physical exam
- In conjunction with CREOG, submitted the CREOG-APGO Proceedings with select abstracts from the Annual Meeting to Teaching and Learning in Medicine
- Began work on the 10th edition of the APGO Medical Student Educational Objectives; will now include osteopathic educational objectives in women’s health developed in collaboration with ACOOG

Treasurer’s Report
Robert F. Flora, MD, MBA, MPH, APGO Secretary-Treasurer

During fiscal year 2012, the APGO Endowment Fund increased by $101,945 thanks in part to the generosity of our membership. We were able to support three awards from the APGO Endowment Fund totaling $45,000.

To celebrate APGO’s 50th Anniversary, one project will be selected to receive up to $50,000 in grant funding during fiscal year 2013.

In preparation of APGO’s 50th Anniversary, the Board of Directors approved all fundraising efforts from March 2012 to December 2013 to support the Capstone Programs Fund.

Your contribution to the 50th Anniversary Capital Campaign will help sustain the four Capstone Programs:

- APGO Clerkship Directors’ School
- APGO Surgical Scholars Program
- APGO Surgical Scholars Program
- APGO Clerkship Directors’ School

Our campaign goal is to raise $1 million. We need 100% member participation to ensure the success of the campaign and to unify the membership in celebration of our 50th year. Your contribution is critical to sustain the organization and allow us to continue our mission of advancing women’s health through education. Please help us reach our goal by donating today!

2012 Highlights
Interactions with Industry: Policy Statement
In March 2012, a Policy Statement on Ob-Gyn Educators’ Interaction with Industry was approved and in May 2012, the statement was published on the APGO Web site. To preserve the existence of regular two-way communication between medicine and industry, APGO defined a new policy on ethical and responsible interactions with industry, along with corresponding suggested guidelines. The statement was drafted by the APGO Corporate Liaison Council in collaboration with the APGO Board of Directors and Development Committee. It is recommended that this policy serve as a guideline to teaching institutions with no current policy in place and encourages teaching institutions with very stringent policies to revisit this subject and adopt a position similar to this one.

New Web Site
In March, APGO launched a redesigned Web site. The new layout was designed to reflect APGO’s member-centric mission to promote excellence in women’s health care by providing optimal resources and support to the educators who inspire, instruct, develop and empower women’s health care providers of tomorrow. With improved navigability, a more personalized browsing experience, and opportunities to connect with other women’s health educators, the new apgo.org was designed with members in mind.

Key Features of the Redesign
- Cleaner appearance and improved navigability make content easier to find
- New MyAPGO profiles allow members to manage personal preferences and customized browsing experience
- A uniform module format makes online learning more user-friendly and accessible
- Upgraded uWISE testing platform allows for individual student and resident logins and customized administrative reporting

Medical Education Endowment Fund
Established in 2009, the APGO Medical Education Endowment Fund serves to fund research projects that improve women’s health education through innovation. In 2012, APGO provided a total of $45,000 in grant funding to fund projects focusing on patient safety/quality improvement, leadership and advocacy, and underserved/global health. The award recipients and their projects are as follows:

- Nirupama K. De Silva, MD
  University of Oklahoma, “Pediatric and Adolescent Gynecology Taught via an Internet-Based Computerized Case Series”
- Francis S. Nuthalapaty, MD
  University of South Carolina-Greenville, “Development and Evaluation of a Clinical Reasoning Examination”
- Roger P. Smith, MD
  Indiana University, “Development and Evaluation of a Clinical Reasoning Examination”

The APGO Medical Education Endowment Fund has been growing steadily since its inception in 2009. It is one of the four APGO Capstone Programs.
Scholarship & Funding

APGO Development Committee Update

The APGO Development Committee met in March and in August to review the budget for APGO grant funded programs, investments and the potential for future funding. The committee discussed plans for the Board Designated Fund and the RFP process for the APGO Medical Education Endowment Fund Award Program. It was decided that as part of the APGO 50th Anniversary celebration, the 2013 APGO Medical Education Endowment Fund Grant Program will fund a single award, up to $50,000. To commemorate APGO’s growth from a national organization to an internationally recognized leader in women’s health education, project submissions were to address national women’s health issues that can easily be adapted to and applied in global settings. Members were encouraged to submit multi-institutional proposals.

The committee also considered recommendations for projects that will be supported in the future by the Board Designated Fund, including the Academic Scholars and Leaders Program, Resident Scholars Award Program, and a new Surgical Scholars Program. Two new online educational modules were discussed: Contemporary Management of Menopause and Management of Endometriosis.

The committee also approved two fundraising events to kick off the APGO 50th Anniversary. They were a Flashback to 1963 themed Welcome Reception at the 2013 APGO Martin L. Stone, MD, Faculty Development Seminar and a Casino Party and Silent Auction at the 2013 CREOG & APGO Annual Meeting.

2012 APGO Development Committee Members
Susan M. Cox, MD, Chair
Amy (Meg) Autry, MD, President-Elect
John R. Fischer, MD, Secretary-Treasurer
Nadine T. Katz, MD
Robert F. Flora, MD, MBA, MPH
Steven E. Swift, MD
Amy E. Young, MD, President

APGO Resident Scholars Award Program

The APGO Resident Scholars Award Program introduces residents who have expressed an interest in medical education to the activities and benefits of APGO at an early stage in their careers. Since its inception, the award has inspired numerous residents to choose a career in women’s health education.

The 2012 APGO Resident Scholar Award recipients were each given $1,000 in travel funds to attend the 2012 CREOG & APGO Annual Meeting. Award recipients were: Ahlambra Fraerey, MD, University of Kansas Medical Center; Michelle Moniz, MD, University of Pittsburgh; Rachael Morris, MD, University of Mississippi Medical Center; Teresa Orth, MD, St. Joseph’s Hospital and Medical Center; Kathleen Rustici, MD, University of Colorado, Denver; Jeanelle Sabourin, MD, University of Alberta; Kristen Zeligs, MD, Uniformed Services University.

APGO Academic Scholars & Leaders Program

The APGO Academic Scholars and Leaders Program advances education in obstetrics and gynecology by providing ob-gyn physician faculty with the additional skills and knowledge necessary to be outstanding teachers and educational administrators. In its 14th year, the program has graduated more than 284 physician educators.

The 2012-2013 Academic Scholars and Leaders class met in January, March and August of 2012, and will graduate at the 2013 CREOG & APGO Annual Meeting in Phoenix. Twenty-four new scholars were selected for the 2013-2014 class, and will hold their first meeting in January 2013.

APGO Surgical Scholars Program

APGO graduated two separate surgical scholar programs in 2012: APGO Surgical Scholars Hysteroscopy and APGO Electrosurgery Scholars Program: Basics of Electrosurgery and Its Applications. Both programs were developed to refine the surgical skills of those ob-gyn physicians who perform, teach and evaluate learners in their respective focus. The hysteroscopy program was sustained from grants from Ethicon Women’s Health and Urology and Conceptus, Inc., and the electrosurgery program was funded in part by a grant from Hologic, LP.

For a complete list of scholars, please visit www.apgo.org/grants

Thank You to Our Partners

Corporate Liaison Council (CLC) Update

APGO leaders and industry representatives participated in a meeting and networking program at their spring meeting in March. After an update of recent APGO programs and activities, the group completed their project to develop a policy statement on interactions between medical professionals and industry representatives, a policy which APGO strongly supports. They also developed a list of suggested guidelines for such interactions. Both the policy and suggested guidelines are posted on the APGO Web site. In August, the group continued to develop FAQs and discuss scenarios and recommendations for engagement under certain conditions.

CLC Mission

To foster a collegial partnership between industry and the medical education community, the CLC consists of corporate representatives and the APGO Board of Trustees who share common goals driven by the following mission:
- Foster interaction between leaders in obstetrics and gynecology education and industry
- Collaboratively identify, develop and implement educational programs and activities in women’s health care
- Provide early access to information regarding evolving trends in women’s health care
