

Educational Topic 30: Postterm Pregnancy

Rationale:

Perinatal morbidity and mortality increase significantly in a prolonged pregnancy. Prevention of complications associated with postterm pregnancy is one of the goals of antepartum and intrapartum management.

Student should be able to:

Intended Learning Outcomes	Level of Competence	Instructional Method	Assessment Method	ACGME Competency	HSS	Emerging Topics	APGO eResources	EPA
A. Identify the normal duration of gestation	K	AL, CE, DT, IL	MCQ, OE	MK			OTC, uW	
B. List the complications of prolonged gestation	K	AL, CE, DT, IL	MCQ, OE	MK	PH, PS, SD	E, GH	OTC, uW	2, 7, 10
C. Describe the evaluation and evidence-based management options for prolonged gestation, with consideration of value-based care and patient safety	KH	AL, CE, DT, IL	CDR, CP, MCQ, OE, OSCE	ICS, MK, PC, SBP	PH, PS, VBC		OTC, uW	1, 2, 3, 4
